

Note these New Prices on U.S. Tires

ON July 29, 1922, the lowest prices ever quoted on U.S. Passenger Car Tires went into effect—Royal Cords included. These new prices should give confidence to dealers and car-owners that no lower basis of quality tire prices will prevail.

Bear in mind that these prices apply to the most complete line of quality tires in the world. Remember, too—as you read the following table—that U. S. quality has been positively maintained.

Federal Excise Tax on the above has been absorbed by the manufacturer

The dealer with a full line of U. S. Tires at these new prices can serve you better than you have ever been served before in the history of the automobile.

If there ever was any fancied advantage in shopping around for tires it disappeared on July 29, 1922.

Fathers and Mothers ATTENTION!

Out of 466 School Children that I Examined in the Salisbury Schools last year, 200 of them had Defective vision in some way. Are you sure your Children's Eye Sight is in good normal condition? It is better to be sure about them. An examination of their Eyes at My Office in Salisbury, Mo., will not cost you anything.

PROTECTION THROUGH THE CENTURIES

YOUR desire to protect the remains of your loved ones finds comforting assurance in the Clark Grave Vault. It is constructed on a law of Nature—the "diving bell" principle, which is the only practical "seal" known to science.

The Clark Grave Vault affords permanent protection because it is least affected by rust, or deterioration of any kind. It's air-tight, water-tight—built to last for centuries.

Even though the Clark Grave Vault is completely covered with water for years, there will be no water inside. Twenty years of use prove this statement. It is made entirely of twelve gauge Keystone copper-bearing steel. (Stone, brick and concrete vaults let water in and hold it.)

We supply the Clark Grave Vault because we realize a vault is worth while only when it permanently protects.
